Who we are

Softweb was established in 2001 as a company specializing in customized software, website / portal development, Networking and professional dedicated hosting. Since its inception the company has grown dramatically and has established various departments. Our clients are diverse and are small and medium sized companies from all over the world especially in the Middle East. Our extensive experience and competitive pricing makes us an excellent choice for small and medium size businesses. Softweb isn't the biggest web development or hosting company, but our combination of affordable web development and hosting technology, combined with quick and reliable customer support has earned us a loyal following. At Softweb, we believe that good web design is an extension of your company. Your core values, your attitude, and most importantly, your target audience should all be represented properly. When it's done right, you have a website that lets people know who you are, what you do, and what sets you apart from your competition. Most importantly, a good website can increase your bottom line.

Mission

Softweb's absolute mission is unique and unparalleled customer satisfaction by delivering cutting-edge applications and services using its knowledge of quality and technology. Softweb's first responsibility to understand customer's requirements and work towards delivering them within time and budget to maximize their business success.

Vision

We set a constant innovation to achieve an ultimate peak of success as our service. Our vision is to provide a top rate quality service and solution.

Commitment

We take pride in our on time delivery and ability to meet quick turnaround requests while exceeding customer quality demands.

Whom we serve

What we do

Software Development

ERP / Tracking / Web Portal / Customized Development / Integration

Softweb is a globally recognized software development company, offering programming that suits the requirements of the present and the future. Our high-quality services are driven by the needs of our customers, cost benefits, schedules, budget targets, confidentiality and security issues. If you're looking for software development services, Softweb can help you create innovative and engaging products. We offer a powerful combination of profound tech expertise, mature, low-risk processes, and proven experience in a variety of business domains to turn your business idea into reality.

Website Development

Portal / CMS / E-Commerce / Dynamic / Static

Softweb is promising with an extensive team of highly capable designers, graphical artists, web developers and programmers. Being a custom-creative website company puts us in the beneficial position of dealing with hundreds of customers with different tastes, goals, and individual visions for their websites. Softweb offers a sophisticated variety of website design and development services, from creating static, CMS, Portal development solutions and responsive website designs, to building custom e-commerce using the latest and proven design technology.

Graphics Designing

Printing / Corporate Branding / Digital Media / Logo / Profiles

Softweb takes immense pride in the work we produce and looks for nothing more than seeing our clients succeed. Our design works includes, but are not limited to Branding & Corporate Identities, Brochures/ Flyers / Catalogues / Posters / Logo Designs, Clothing Graphics, and Car Stickers. Softweb provides high-quality services to our clients within minimum (time) periods. We offer our busy entrepreneurs and professionals the (increased productivity of getting) more work done in less time. We aim to build a new era of graphical services and our artists do their best to make improvements every day.

Domain Registration

Portal / CMS / E-Commerce / Dynamic / Static

Softweb offers both .com, and com.sa domains as well as the latest TLDs. We provide a full suite of domain services, including domain name registration, domain name transfers, domain name renewal, domain expiration protection and domain privacy services. After all, your website legitimizes your business, your blog or your brand and Domain names representing who you are, what you offer and where you are located. Domain names can include your company name, your brand, or your product. And ultimately, they create a professional image.

Dedicated Hosting

Portal / CMS / E-Commerce / Dynamic / Static

Softweb began in the year 2001 with the goal of providing professional and reliable web hosting services to our clients by using the latest software all at affordable prices. We assure contentment to all our clients through our cultivated expertise and uncompromising support services over email and the phone. With OVH, you are guaranteed our full range of expertise regarding hosting solutions. All our servers use next-generation components. We offer different ranges of highly-efficient dedicated servers, adapted to the most demanding needs of any type of company. Host your website, deploy your highly-resilient infrastructure, or customize your machine to suit your projects.

Networking

Portal / CMS / E-Commerce / Dynamic / Static

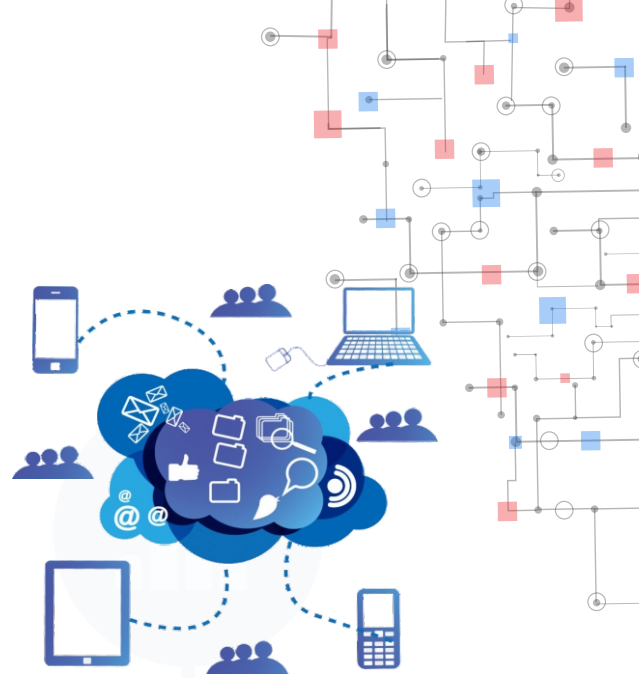

Softweb offers reliable networking services for homes and businesses alike. Even if you need a simple network for your home or business, we can help. Our mission is to deliver proven technological solutions along with tireless customer service. Our goal at Softweb is ensuring that your network services stand up to your business needs and do not negatively affect your bottom line. Our IT professionals know how to streamline intercompany networking and increase productivity by optimizing connectivity and permissions with expertise.

Cloud Services

Portal / CMS / E-Commerce / Dynamic / Static

Earlier, data was stored in hard drives which were not reliable and secure due to these drives being easily accessible by anyone. Today cloud computing services have replaced old school search hard drive technology and have come up with a new concept called cloud technology where data is stored in the cloud. We offer Software as a Service (SaaS), Platform as a Service (PaaS), and Infrastructure as a Service (IaaS). The speed and agility of the cloud satisfactorily fulfills the requirements of our customers. Cloud Services allow you to work from anywhere and from any device as the files can save to the cloud and can access at any time from anywhere. Cloud services allow you to work without hassles knowing that your files are saved safely to be accessed from anywhere and any device.

Printing

Portal / CMS / E-Commerce / Dynamic / Static

Although Softweb does not own a printing press, we do partner with many modern and professional printing companies equipped with elite printing equipment where we get quality printing services at a reasonable rate. In today's rapid changing printing and graphic communication environments where service, quality and reliability are top priority we will confidently and reliably deliver your requirements. Our experience has given us the enviable ability to cope with most print requirements. We do this by investing in high quality enterprises, getting the basics right and our commitment to excellence in service delivery.

Content Writing

Portal / CMS / E-Commerce / Dynamic / Static

Softweb provides excellent content writing services capable of grabbing customer's attention from across the world with the help of our content experts who generate a classy cognition of the client's business for their audiences. We also offer continuing services throughout thereby saving your precious time. Value-delivering content has become a great solution for businesses today - Have you included engaging content on your site? The SMEs are creating appealing content to serve your potential customers. Our team of professional writers know just exactly how to create quality-rich content that converts audiences into loyal customers.

Cyber Security

Endpoint Security / Network / Network Security /
Data Security / Application Security

Softweb focuses on our specialized knowledge and area, and does not offer everything to everyone and offers our vast resources to our users. We offer auditing and consulting services related to more challenging cyber security problems. In a nutshell: We offer those security services that others do not. When you need a specialist, Softweb is the right partner for you! Our cyber security services offer tremendous monetary and non-monetary value within your organization. Minimally, an improvement in your security posture stance keeps confidential, classified, and proprietary business materials out of the hands of competitors.

Mobile App

Portal / CMS / E-Commerce / Dynamic / Static

Softweb brain storms and creates apps that can help your business to vouch for higher ROI from the market. Robustness, creativity, and innovativeness are what subtly separate our skilled mobile app developers from others. We envision your ideas and build a cutting edge innovative mobile app that your user will love. Softweb brings together the most dedicated iOS, Android, and web app developers, so you can outsource your project and get a top -notch product. We have all the expertise you need to produce fully fledged, stable, and scalable web or mobile applications.

Backup Solutions

Portal / CMS / E-Commerce / Dynamic / Static

Cloud backup service is one of the facilities offered by Softweb to help you store your data on remote servers located at diverse locations. Unlike local backups, there will be no risk of hardware failure, accidental erasure, or malware attacks. Moreover, you will be able to access the data at any time and from anywhere. This facilitates the convenience of the user as its very reliable and noteworthy. Our Backup services offer several benefits like reduced costs, reliability because of the availability of secure data protection, file transfer security, and improved compliance safeguards. Cloud backups are easy to restore and accessible from anywhere at any time. Based on your requirement, you can choose the solution that supports the backup from external drive, mobile devices, and system and the application which can also affect the selection.
